United States Bankruptcy Court  
One Bowling Green  
New York, NY 10004

Attn: Judge Robert D. Drain

Ref:

Delphi Corp Case # 05-44481 filed October 5, 2005

Document # 14705 to cancel OPEB (health insurance benefits) for all retirees

Dear Judge Drain:

This letter is to express my concerns with Document #14705 filed by Delphi Corporation on February 4, 2009 asking the court to cancel health insurance benefits (OPEB) for over 15,000 people who are retirees of Delphi Corporation.

**Please note that this letter is an OBJECTION to that document and file it as a motion to object to document #14705.**

This document was filed with no previous warning to any of the retirees of Delphi Corporation and was only made known to us via letter on February 5, 2009 and gave us a mere twelve days to file our objections.

Many of the most recent retirees of Delphi were retired **BY** the company and **NOT** by the choice of the employee. We were given no decision to make, just told we would be retiring on a specific date. We had little time to prepare for retirement, and little time to adjust to a significantly reduced income before we were hit with this latest development (loss of health care) which will cause financial hardship for every retiree. It will have huge impacts not only on the retirees, but also every community where retirees live.

With the current state of the economy, retirees who had saved for retirement in their Stock Savings Plans, have lost almost 40% of their savings. As you know, the cost of living has increased significantly in the last two years. This coupled with the loss of health care benefits would have a crippling effect on the lives of every retiree of Delphi Corporation.

It is my belief that there are other ways to restructure the company and still retain health care for retirees. Health care benefits are currently scheduled to stop at the age of 65 for all retirees. This cost is a decreasing cost to the company as each of us reaches that 65 age milestone. The other options that should be considered are:

- Revise hourly (active and retired) health care plan (co-pay, etc) to match the current salaried plan

- Increase co-pay for all (salaried and hourly) active and retired employees
- Reduce available medical treatments for hourly and salaried employees (ie chiropractors, etc)

In addition, the Wall Street Journal is reporting that General Motors is considering taking back a portion of Delphi. The majority of the Delphi retirees spent more time as a General Motors employee than a Delphi employee. If this is the case, then should we not be afforded the opportunity to return to the parent the same as many of the Delphi hourly workforce?

Your honor I ask you to consider that the Delphi spin off from GM was not an arms length transaction. Many of the Delphi senior management were GM employees. Many were able to retire as GM employees vs Delphi. Favorable pricing towards GM was granted that led to Delphi's demise. How is it that other automotive suppliers such as Lear, Johnson Controls, etc have avoided bankruptcy. They supply GM.

Please know that each of the 15,000 retirees who will be negatively impacted by this action will be looking to you for your consideration when making the decision concerning Document #14705 dated February 4, 2009.

**We ask you to REJECT this motion and request that they look at alternative options.**

Sincerely yours,

Elaine Hofius
